VEGETABLE SEEDS

John Bodger & Sons Co. WHOLESALE SEED GROWERS GARDENA, CAL.

CODE

American Seed Trade Association Telegraph and Cable Address "Bodger Losangeles"

BEFORE submitting our contract prices for consideration during the Season of 1910, we desire to thank our many customers for the liberal patronage given us in the past seasons, and as our Mr. Bodger, Sr. will in the future devote the whole of his time to the care and improvement of all our stocks while growing, we feel confident in saying our present stocks will be improved, and we feel sure will give every satisfaction; especially SWEET PEAS, TOMATOES, LETTUCE, LIMA BEANS, ASTERS, COSMOS and other flower seeds, which are our principal crops.

TERMS—All prices quoted on basis of f. c. b. California, and forwarded at best possible rates.

Flower and Vegetable Seeds 2% in 30 days or Net in 90 days from date of invoice; Beans Net in 30 days. All overdue accounts subject to sight draft without further notice.

Seamless bags and all containers charged at cost.

NON-WARRANTY—We exercise the greatest care in growing and harvesting our Seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and send out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither description, growth or productiveness of any Seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the Seeds we grow.

If our goods are not accepted on these terms they must be returned at once.

Our Seeds have now been selling on their merits for the past fifteen years, and by observing the steadily increasing demand, we believe they have given general satisfaction, but should any variety not have been as represented, we hope our patrons will acquaint us therewith.

Very respectfully,

## JOHN BODGER & SONS CO.

#### BEANS.

We plant a large acreage to Beans every season in varieties as listed below, from carefully selected stocks, and are in a position to quote as low as any California grower for reliable and merchantable Beans, but as prices depend wholly upon the amount of rainfall each season and general conditions before planting time, it is impossible to make fixed prices until March. Kindly advise us of your probable requirements of each variety and we will be pleased to submit our best prices in good time for placing early contracts.

#### SWEET PEAS.

We are now one of the largest growers of these popular flowers, and as our Mr. John Bodger has spent the past season inspecting crops of the various growers in Europe, the trial grounds of the National Sweet Pea Society of England, etc., securing stock seed of most of the desirable new varieties to date, and will give special attention to the culture of these to get our stocks to the highest standard of perfection possible, we can assure our patrons that it will be our full determination to send out nothing but what we believe will give satisfaction to the most critical trade.

Should any of these new Spencers, which we are offering for next season's crop, prove to be still too sporty, and not sufficiently fixed to be reliable for re-production the following year, we will advise our customers, and will only supply such varieties by request.

Florence morse Spencer
